

**Digital Humanities programming project, introduction meeting**

**Friday, February 20, 2015**

**12:15 to 13:15**

**IAM building (Neubrückstrasse 10). Room: TBA**

**Attendees:** Prof. Tara Andrews, Ido Gershoni, Ramona Imhof, Ioannis Kokkinis, Joel Niklaus, Jakob Schaerer, Prof. Thomas Studer, Severin Zumbrunn

**Objectives:** Discuss requirements and create a work plan for the first release

**Agenda:**

- Short introductions
- Prof. Andrews will present the main goal of the desired project. This may include a short demonstration of the existing system
- Prof. Andrews will present the “user stories”
- The PSE team will examine the stories from a technical point of view and will note on each “story” the amount of work its implementation assumably will require
- Prof. Andrews will sort the “stories” according to their importance
- The PSE team will sort the “stories” again according to their understanding of the risks involved in implementing them. Prof. Andrews could then re-order the "stories" again
- The PSE team will estimate how many hours of work will be required for the implementation of all the “stories”
- Prof. Andrews will decide which of the stories will be implemented for the first release
- Questions and conclusion
